2024 Mathematics Grade 12 Assessment Report Card: Summary Data Tables for National Participation Rates, Proportions of SD and EL Students Identified, Accommodation Types

Student sample sizes and target populations at grade 12 in NAEP mathematics: 2024

Grade	Sample size	Target population
Nation	20,100	3,411,000
Public	19,000	3,135,000
Private	1,100	276,000

NOTE: In 2019, the digitally based NAEP mathematics assessment was administered for the first time. The sample size is rounded to the nearest hundred. The target population is rounded to the nearest thousand. Data for BIE and DoDEA schools are counted in the overall national totals, but not in the public school totals. Detail may not sum to totals because of rounding.

School and student participation rates at grade 12 in NAEP mathematics, by type of school: 2024

Type of school	School participation			Student participation	
	Student-weighted percent	School-weighted percent	Number of schools participating	Student-weighted percent	Number of students assessed
Nation	87	71	1,500	68	19,300
Public	92	92	1,410	68	18,200
Private	26	18	90	67	1,100

NOTE: In 2019, the digitally based NAEP mathematics assessment was administered for the first time. The national totals for schools include Department of Defense Education Activity (overseas and domestic schools) and Bureau of Indian Education schools, which are not included in either the public or private school totals. The national totals for students include students in these schools. The number of schools is rounded to the nearest ten. The number of students is rounded to the nearest hundred. The school participation rates are student-weighted percentages before substitution. Columns of percentages have different denominators. Detail may not sum to totals because of rounding.

Assessed	4	3	3	3	4	6
Without accommodations	3	2	1	2	2	4
With accommodations	1	1	1	1	2	2

Rounds to zero.

NOTE: In 2019, the digitally based NAEP mathematics assessment was administered for the first time. The 2019 science results include results from students who took the digitally based assessment (DBA) and students who took the paper-based assessment (PBA). Students identified as both SD and EL were counted only once under the combined SD and/or EL category, but were counted separately under the SD and EL categories. SD includes students identified as having either an Individualized Education Program or protection under Section 504 of the Rehabilitation Act of 1973. Detail may not sum to totals because of rounding.
